## Envirobrick – Intumescent Fire Brick and Seal

#### **Description:**

Temporary or permanent fire protection solution for sealing around pipes, cable trays and cables in wall, floor or ceiling openings. Made from fire resistant sponge with intumescent. Dust and fibre free. Easy to install. In a fire the sponge centre will stop the fire and smoke penetration and the intumescent, which is rubberised, expands holding the blocks together and sealing off the opening

#### **Material Specification:**

Black flexible polyurethane sponge treated with flame retardants, particulate filler and a polymeric bonding agent with rubberised intumescent and intumescent coating, available as rectangular bricks or circular plugs.
